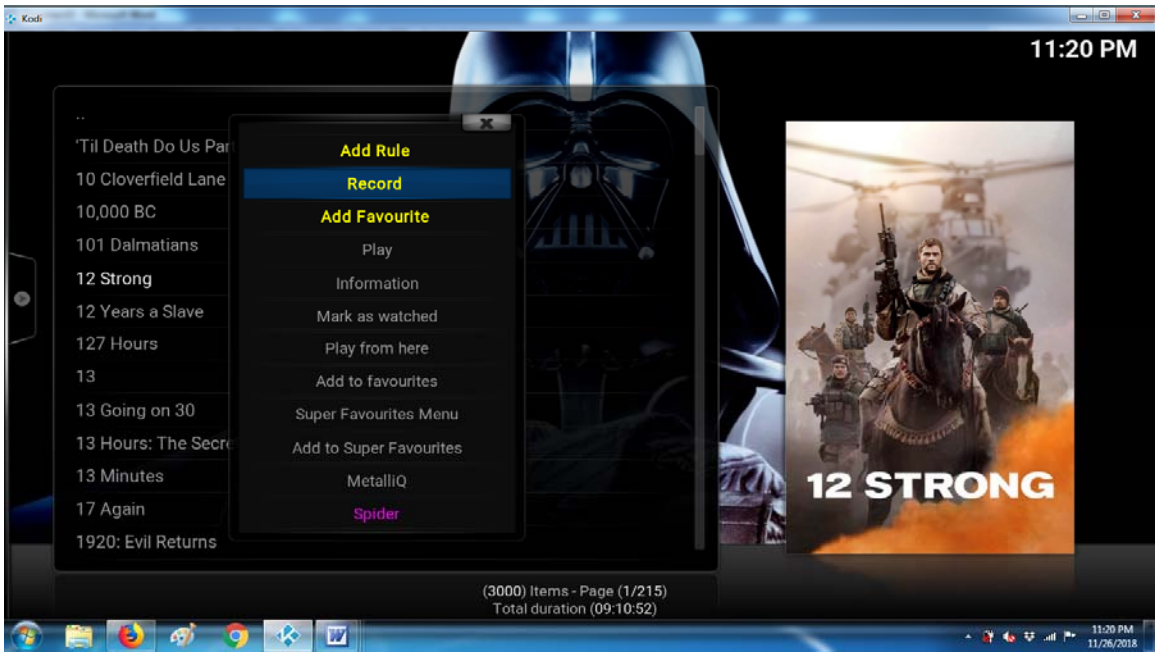
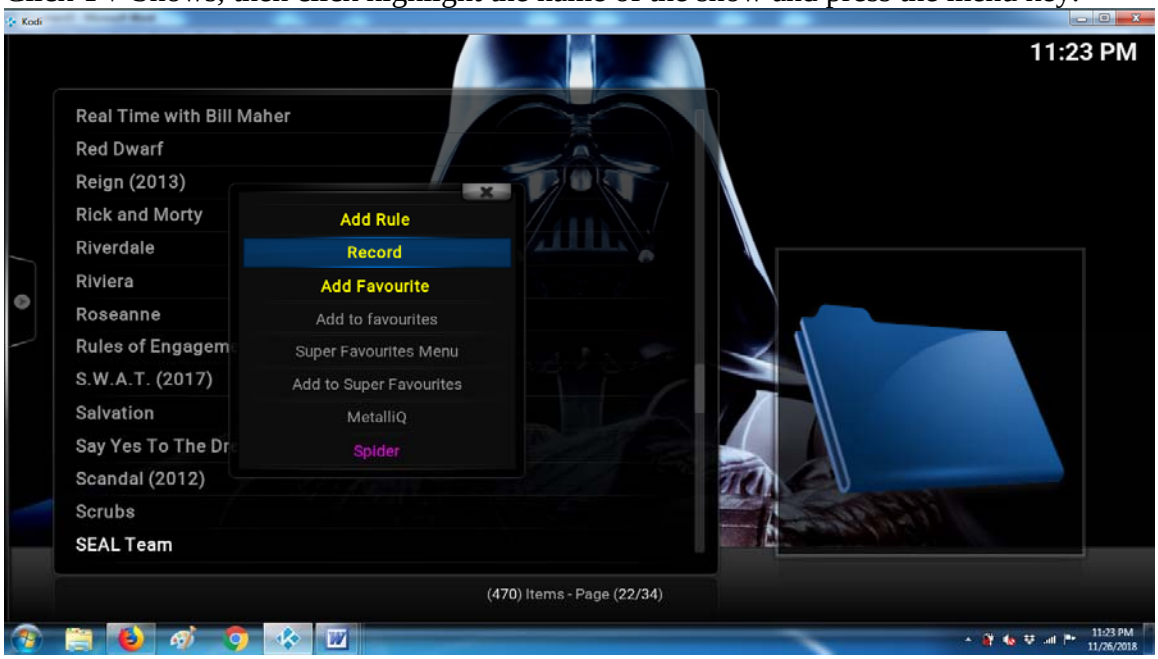
TO RECORD A SINGLE MOVIE OR SHOW RIGHT AWAY MANUALLY

To do this you just have to navigate to what you want to record, highlight it and bring up the context menu by pressing the Menu key (3 lines on remote, or C on a keyboard), this will bring up a context menu. Click “Record”

For example to record a movie:
Click Movies, find the show, press the menu key and click Record



To record a single or a selection of tv episodes in the VOD section:
Click TV Shows, then click highlight the name of the show and press the menu key.



This time you will get another box come up where you can select the episodes you want to record. Clicking on them, makes them orange, those are the ones that will record. After selecting the ones you want click OK to begin recording.
